

PROJECT PROFILE

Work by O'Brien

Construction of two buildings for new Primary Health Care Centre, Stratford upon Avon, with associated external works.

The work carried out by O'Briens included the construction of reinforced concrete foundations and floor slabs. Approximately 1000m³ reinforced concrete, 1000m² tarmac surfacing and 500m² of high quality paving to external finishes were used in the development of this project. We were also asked to undertake landscaping works to isolated areas within the building footprint.

The site was very restricted requiring careful co-ordination of works and material deliveries to ensure minimum disruption and a high level of safety at all times.

Client

BAM Construct UK (formerly known as HBG UK Ltd)

Project

Stratford Healthcare Centre

Location

Stratford upon Avon

Value

600K

Contract Duration

20 weeks
